Features of Civics Assessment

- **Core idea (Topics):**
 - A) *Foundation and development of the U.S. political system & government*
 - B) *Institutions and structure of U.S. government & Massachusetts state and local governments*
 - C) *Rights and responsibilities, the U.S. Constitution, and news & media literacy*
- **Practices:** Encourages a **range of instructional approaches** for each core idea. Each core idea integrates specific civic practices and embeds them within the entry point.
- **Curriculum:** Allows educators to teach and assess a cohesive **civics unit**, rather than assessing single skills in isolation.
- **Cross-curriculum** opportunities and encourages assessment of multiple entry points (or access skills) in a single-strand (informational text, vocabulary acquisition, writing)

Overview of Civics

Civics assessment for the MCAS-Alt is comprised of three Core Ideas:

- **Core Idea A:** Foundations and development of the U.S. political system and Government (practices 1, 4, and 5)
- **Core Idea B:** Institutions and structure of US government and Massachusetts state and local governments (practices 1, 3, and 6)
- **Core Idea C:** Rights and responsibilities, the US Constitution, news and media literacy (practices 1,2, and 7)

Complete one MCAS-Alt Skills Survey. (One survey that contains all three Core Ideas)

MCAS-Alt Civics Skills Survey

1. Civics Skills Survey is completed one for each of the Core Ideas.
2. Teachers should check boxes to see if a student can perform the practice independently, at least sometimes independently.
3. Then, the teacher will select entry points for assessment that best meets the student's level of need.

Teachers working with students at the access skill level will check the box, *“My student cannot perform any skills in civics core idea.”*
